

wanderingwifi

Step 1

For easy access to the Chick-fil-A® WiFi network, bring in any device as a laptop or PDA that is WiFi (802.11 b/g) enabled.

Step 2

Set your wireless card to connect to the Chick-fil-A WiFi network. Depending on your device and operating system, instructions may vary. For most operating systems, you'll need to set your network identifier or SSID to "Chick-fil-A WiFi." This can be done within the network connections settings. For assistance, please call 888.446.7132.

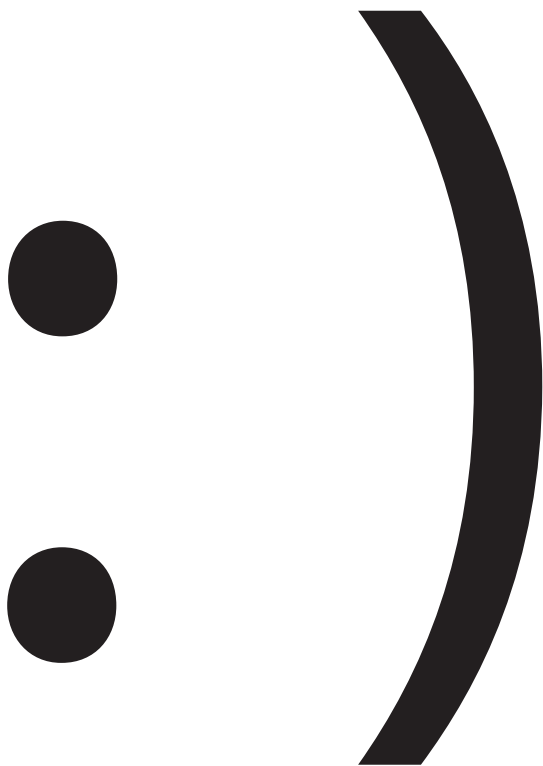

Step 3

Sign up for a FREE Chick-fil-A WiFi account by selecting "New User? Register Now." on the log-in portal. Create a unique user ID and enter your name and e-mail address. Review the User Agreement, click "Login," and Start Wandering! You're Connected.

Step 4

For further assistance, or technical questions, call our Customer Care at 888.446.7132.
